This beautiful center entrance colonial dollhouse includes hundreds of dollars of doll furniture: kitchen set, dining room set, bedroom set, and more.

Handmade, detailed colonial built by hand made of all wood.

The dollhouse fell in the truck on a move and some pieces came off. If not for that we would've been selling this dollhouse for hundreds more as it took hundreds of hours to build. Anyone who is crafty will enjoy fixing this dollhouse back up to its original condition and will be left with a gorgeous dollhouse and a bunch of expensive doll furniture.
