My, my -- that's a wonderful sparkly piece of bling on your left hand. (MAJOR CONGRATS!) Are you looking for someone to document your love-story in a way that is true to who you are as a couple? Do you want an experienced wedding photographer who specializes in authentic moments and raw emotion to photograph you as you say "forever?" Your search is over!

I have a documentarian's eye when it comes to wedding days: I look for the details and the moments that happen naturally -- and I can put on my portrait photographer's hat to tell your family what to do with their hands during formal portraits. Using a combination of poses and prompts, I'll be sure to photograph you and your new spouse in ways that are natural and romantic -- as well as ways that capture your unique personalities.

All of my packages include two photographers and, for the first time ever, they all include engagement sessions.

Ready to chat more? Simply go to this link (<https://www.featheredpenny.com/let-s-chat>) and fill out the contact form. I'll respond within 24 hours. Or, if you'd rather chat in person (over coffee or margs!) go to this link (<https://www.featheredpenny.com/book-a-session/pre-booking-consultation/book>) and select a time that works for you.
