My wife and I are selling our 2004 5th Wheel camper trailer. We have loved having this trailer, but we're moving soon and don't need to take it with us. The combined living room and kitchen has one large slideout, which makes it feel very open and spacious. There are tons of cupboards and we have never had an issue finding room for all our stuff.

There's a queen sized bed over the king pin with lots of cupboards and 2 closets for storage. The bathroom is very roomy for a camper and has a nice sized shower. There is a separate vanity in the hallway which has been a really nice feature.

Some details:

Kitchen:

- 3 burner propane range with oven and ventilated hood
- Nice sized electric/gas refrigerator
- Microwave

Living Room - Entertainment center with 40" flat screen TV
